

## CSE2102 Introduction to Software Engineering (Spring 2024)

Please enter the full URL of your team's Lab1 solution (i.e., the class diagram) on the GitHub repo:

[copy-and-paste URL here]: \_\_\_\_\_

Evaluate each member in your team on a scale of **0 (no involvement) – 10 (excellent)** based on the following attributes

- **Participation:** How much interest the team member shows? How much motivated is he or she to get the work done? How about attendance in the team meetings and responsiveness in e-mails, etc.?
- **Contribution:** Does the member suggest solutions that lead to finishing the task? Does he or she finish the assigned work?
- **Timeliness:** Coming to meetings; finishing work on time; etc. Does he or she make you miss the milestone point(s) and/or the deadline?
- **Overall:** Is the member an asset to the team? Are you happy that he or she is in your team?

**Evaluate yourself also.** Add additional rows if necessary. Add comments at the bottom if desired. The table part is mandatory.

	Name	Participation	Contribution	Timeliness	Overall
1					
2					
3					
4					
5
